[Github](#) | [Linkedin](#)

Cybersecurity student and **Certified Ethical Hacker (CEH)** with hands-on experience in **web and mobile penetration testing** and **malware analysis**. Identified **CVE-2026-25471** and ranked as a **Cyber Security Challenge Belgium (CSCBE) finalist**. Seeking a **Junior Penetration Tester** or **Security Engineering** role.

Experience

KBC Offensive Security Internship

Feb 2026 – May 2026

- Develop automation for mobile penetration testing environments to improve testing efficiency
- Integrate Burp Suite with Frida for login flow automation
- Conduct KBC mobile security assessment based on OWASP MASVS
- Research and analyse Android banking malware

Projects & Achievements

[CVE-2026-25471](#)

Feb 2026

Discovered and responsibly disclosed a critical authentication bypass vulnerability in a WordPress "Admin Safety" plugin, enabling account takeover.

[CSCBE 2026 — ECSC Track Finalist](#)

Feb 2026

Ranked 8th nationally in the Junior track qualifiers and selected for the ECSC track finals, with the potential to represent Belgium in the European Cyber Security Challenge (ECSC) as part of the national team.

[Analyzer](#)

Sep 2025 - Present

An open-source AI-powered Burp Suite extension that integrates an AI assistant for performing iterative security investigations on HTTP endpoints with human-in-the-loop oversight.

[ELK + Burp suite stack monitoring system](#)

Mar 2025 - May 2025

This project builds a versatile Burp Suite + ELK Stack setup using Filebeat for centralized storage, analysis, and anomaly detection of HTTP requests. It allows security research and efficient vulnerability tracking.

Education

Howest, Applied Computer Science (major Cybersecurity)

Sep 2023 – Sep 2026 (Expected)

GPA: 16.69/20

Relevant coursework: Practical Reverse Engineering and Malware Analysis, Web Pentesting Advanced, Cryptography, Security Management and Threat Assessment, Network and System Pentesting.

Certifications

[Certified Ethical Hacker \(CEH\)](#)

Feb 2026

Core Skills

Web & Mobile Security : OWASP Top 10, OWASP MASVS, Burp Suite, Threat Modelling, Frida, Medusa, Ghidra, API Penetration Testing.

Malware Analysis: Static and Dynamic analysis, Android Malware, Windows Malware, Reverse Engineering

Programming & Frameworks: Java, Python, JavaScript, C++, x86 Assembly.

AI/LLM: Machine Learning basics, Deep Learning basics, Statistics, Data Analysis.

Systems Administration: Linux System Administration, QEMU, VMware, VirtualBox, VPN, Tunnels, Routing.

Languages

English (Fluent), Russian (Fluent), Dutch (Basic), Mandarin (Basic).
